## Studies

- 18 December 2000: Degree in Materials Engineering at "Università degli Studi di Ferrara", Italy, with final mark of 103/110. The title of my graduation thesis is "Experimental Determination of Elastic Constants and Strengths of Composite Materials for Civil Structures Consolidation".
- 1988: General Certificate of Education granted by Liceo Scientifico "Gregorio Ricci Curbastro", in Lugo (RA), Italy.

## Foreign languages

Good command of spoken and written English.

In August 1994 I attended a summer course of English at "St Giles Colleges" (London Central) in the high intermediate level class.

## Information technologies

My knowledge comes from university courses and personal experience and interests.

Operative Systems: very good knowledge of DOS, Windows 98, Windows 2000, good knowledge of Macintosh OS.

Fundamentals of programming languages: Fortran, Pascal.

Software: good knowledge of Word, Excel, Access; quite good knowledge of Autocad, Inventor and Solid Edge; some experience with FEM codes (Microsafe) and with the programming environment Labview.

Very good knowledge of Internet.

## **Professional experiences**

- Since 16<sup>th</sup> May 2001 I have been working as foundry engineer at Alcoa-Reynolds Wheels S.p.A. in Ferrara, Italy.
- December 1999 – December 2000: I did a research work for my Graduation Thesis at the Materials Science Laboratory of Ferrara University, in collaboration with the Civil Engineering Department of Constructions Science and Technologies.
- April 1999 – February 2000: Collaboration as systems engineer (installer in the Remote Banking division) with Sidi Tecnomatica Srl, a society based in Milan which operates in the IT sector.
- April 1997 – February 1998: Compulsory service, as secretary collaborator at Caritas in Ravenna.

## **Other information**

I am willing to move or travel in both Italy and abroad.  
I have a driving licence, cat. B, and a car of my own.

## **Professional interests and expectations**

I am very interested in new advanced technologies, as those using composite materials, and in research. An ideal job should improve my professional and technical skills in time, and the ideal work environment should be stimulating and flexible.

## **Other interests**

Besides reading, some of my hobbies are sailing, scuba diving, photography and model aircraft flying (constructing and assembling dynamic aircraft models).
